Ref: Your T.M. dated 24th January 1933 regarding cultivation of cashew trees.

--

A list of waste lands available in the South Kanara district suitable for cultivation of cashew was obtained from the Collector of the district and communicated to the Honorary Secretary, District Advancement Association, Mangalore and two important manufacturers of cashew nuts with the request that the information might be brought to the notice of persons interested in the matter, with a view to their applying to the Collector for assignment of the lands selected by them. I have also arranged in consultation with the Director of Agriculture for the selection by the Oil Seed Specialist of the best varieties of cashewnuts with a view to introducing the cultivation of the nuts in parts where it is not grown and extending cultivation in parts where it is already grown. I shall try to introduce these varieties in South Kanara as soon as sufficient waste lands have been assigned for cashew cultivation.
